Join Pure Stay

Hotels can also behave in an environmentally friendly manner. We have come to the realisation that we have the power to do a great deal to benefit nature. With every hotel modernisation, we think carefully about how we might behave even more responsibly. This is why we use recycled materials at our hotels.

We purchase cleaning and cosmetic products in packaging-free forms to reduce plastic consumption. We have introduced more economical lighting. Yet we are also taking on bigger challenges. We keep bees on the roofs of our hotels and compost whenever we can. This was the origin of Join Pure Stay. Follow us on our journey to a clean environment.
