In a spa full of gold

Svijany hotel and château. A place of many gems, which is surrounded by the unique natural wealth of the Bohemian Paradise. However, this magnificent residence, wreathed in tradition, contains more than just gold jewels and precious stones - it holds the secrets of the wealth and mystery of a liquid gold that has been made here for over four centuries.

The château and the brewing of beer in Svijany were first mentioned in 1567, which makes this one of the oldest breweries in Bohemia. The beer brewing tradition, which has been preserved to this day despite some stormy times, was recently elevated to an even higher level, with the enjoyment of this refreshing beverage now accompanied by the benefits of rest and relaxation. Fans of the golden brew can enjoy this relaxing experience as a beer bath in high-quality water from Svijany enriched with brewery yeast, malt and hops, while tucking into the traditional pretzels and relaxing on a straw lounger. A hot bath in a whirlpool tub also has beneficial effects, making it an enjoyable treatment that's good for the entire body.

PASK - Glass Pavilion Klatovy

A unique private collection of Lötz glass from the Šumava region.

It's rare to find a collector who decides to loan his collection to be displayed in public for so many years. But it does happen. And so, thanks to an Austrian collector, since 2014, residents and visitors to Klatovy have had the opportunity to see one of the largest and most valuable European collections of Lötz glass in the Glass Pavilion. More than 600 pieces of beautiful Šumava glass from Klášterský Mlýn are sure to delight everyone, not only glass lovers. Another 100 or so interesting glass pieces have been added to the exhibition since 2017. Many of the new glasses exhibits in the pavilion are also made of uranium glass.
