The tastings take you on a journey through different corners of the world – from the slopes of Moravia and Austria's Wachau to Spain's Manchuela. Step by step, the sommelier guides the guests, explaining the secrets of each variety and showing how wine can complement the flavour of a dish.

Amazing World also offers themed evenings where wine comes alive in combination with authentic cuisine. Within the Asian menu, you will discover how aromatic white wines blend beautifully with coconut milk, how rosé wines highlight Thai spiciness, and how elegant reds enhance the depth of Asian sauces.

Litovel Brewery

Over 700 Years of Tradition, Classic Methods, the Finest Ingredients, and Awards from Prestigious Exhibitions and Competitions Both at Home and Abroad. Welcome to the world of Litovel beer from the fertile Haná Region.

The more than 725-year tradition of beer in Litovel dates back to 1291, when King Wenceslas II granted the town its brewing privilege. This right allowed only the citizens of Litovel to brew and serve beer within a radius of one mile – approximately seven kilometres. Even today, Litovel beer, brewed using traditional methods, has its roots in this glorious historical era.

Litovel Brewery continues to brew beer in the spirit of classic craftsmanship and from the finest ingredients, as it was founded by passionate people determined to offer excellent beer that bears the character of the region where it is born. These remarkable individuals helped shape the destiny of this unique golden brew from Haná and are inseparable from its history. Among them are Josef Svozil (the founder of hop cultivation methods), Gustav Frištenský (a strongman and Greco-Roman wrestler, after whom the premium beer Gustav is named), and Josef Elleder (a brewmaster and visionary in the use of exclusively Czech hops).

The brewery's biggest event is the Litovel Otvírák. Today, the brewery produces 17 types of beer. Visitors can book a tour of the brewery and the brewing museum, enjoy a beer tasting, and even brew their own beer here.

Zubr Brewery

Since its foundation in 1872, ZUBR Brewery has prided itself on its honest approach and traditional brewing methods. Only regional raw materials of the highest quality are used in beer production.

Selected hop varieties from the renowned Tršice hop fields give the beer its distinctive bitterness, while premium malt made from Haná barley adds a deliciously full flavour. Everything begins in the brewhouse, followed by fermentation in open vats and long maturation in lager cellars at low temperatures.

The brewery's biggest event is Zubr Fest. Come and see where Zubr beer is brewed and discover the history and secrets of high-quality Moravian beer production. Tours accommodate up to 25 persons and take visitors through both traditional and lesser-known areas.

Holba Brewery

For more than 140 years, Holba Brewery has been producing pure mountain beer in the beautiful surroundings of the Jeseníky Mountains, known both at home and abroad.

The experience of its brewmasters has been passed down from generation to generation since the brewery's founder and brewmaster, Josef Müllschitzký, brewed the first batch of Hanušovice beer here in December 1874. At that time, the capacity of the modern steam brewery reached 22,400 hectolitres per year, which equalled 40,000 buckets. Today, the brewery produces twenty times that amount. Although the reputation of Hanušovice beer has long exceeded the regional borders, its strong connection to its place of origin is reflected not only in the very name of the brewery, which bears the name of one of the oldest parts of Hanušovice – Holba – but also in the names of its products. An example is the brewery's flagship beer – HOLBA Šerák. This popular 11° lager is named after a nearby peak of the Hrubý Jeseník Mountains. While its height has remained the same, the production of Holba Šerák exceeds 200,000 hectolitres of beer – more than 40 million half-litre glasses. The brewery's biggest event is the annual spring hiking tour.

The brewery offers guided tours and a brewing museum, where visitors can view brewing rights documented by old parchment charters and journeyman certificates. In addition to the beer production itself, the exhibition introduces visitors to the essential ingredients used in brewing the golden beverage and recalls the challenges of their transport in the days of horse-drawn carts.

St. Wenceslas Brewery

The St. Wenceslas Microbrewery was first opened in the city centre in June 2006. It is located in the historic heart of the city near St. Wenceslas Cathedral and close to the Archbishop's Palace, on Mariánská Street.

The beer is brewed from the finest malts and Žatec hops. No chemical additives are used in the production process. The beer is served in its natural form, unpasteurised and unfiltered, directly from the lagering tanks. The heart of the brewery is a copper brewhouse nicknamed "GOLEM," where the first stage of beer production – the brewing – takes place right before the guests' eyes. The process then continues in the brewery cellars with fermentation and maturation. The result is seven types of beer.

The brewery offers a beer spa. The bath, prepared in stylish wooden tubs, has many relaxing and beneficial effects on both body and mind, and is enriched not only with essential nutrients but also with genuine dark beer containing brewer's yeast. A visit to the Beer Spa in the local cellars is a pleasant and relaxing procedure that releases your whole body and mind and leaves you with a feeling of bliss.

Loket Brewery St. Florian

“Loket Once Again Smells of Beer – an Unfiltered Experience from the Original Malthouse!”

After decades, beer production has returned to Loket. Unfiltered and unpasteurised beer is brewed in a small brewery located in the original malthouse beneath the former post office, now part of the Hotel Císař Ferdinand. Five types of beer are brewed here: a pale 11°, a dark 11°, a smoked 13°, a semi-dark 15° Longin, and a 28° porter called “Kralevic Václav”.

A unique feature of the brewery is the largest collection of spa cups – over 3,000 pieces at the last count – so-called “koflík” mugs used for drinking mineral water as part of spa treatments. The collection is displayed in the interiors of the Payer House on the main square in Loket.

The St. Florian Brewery also offers comfortable accommodation in three newly renovated hotels – St. Florian, Císař Ferdinand and U Bílého koně. The complex includes a family brewery with a stylish restaurant and a distillery named U Bílého koně.

Ryžovna Brewery in the Krušné Mountains

“Taste honest beer and the atmosphere of the Krušné Mountains.”

The family-owned Ryžovna Brewery was founded just as things in life should be – out of love. Out of love for beer, the traditional Czech beverage, and out of love for the Krušné Mountains, in whose heart lies the nearly forgotten settlement of Ryžovna.

In the brewery taproom with its restaurant, visitors can relax with good food and, of course, a pint of beer. The beer is brewed with the same honesty and dedication as the former miners once panned for tin ore. Beer lovers can order one of three types of beer made from floor-malted barley, hops, water and yeast.

The lightest, an 8°, is called Školák (“The Schoolboy”), the 12° is named Boží Dar (“God’s Gift”), and the highlight of the range – the 13° beer – takes its name from Major Kuneš, the main character in the popular TV series Rapl. Ryžovna, where you can feel both history and the living charm of the surrounding landscape, is truly worth a visit.

Brewery Restaurant

In winter, you can enjoy the warmth by the roaring stove, while in summer you’ll find a pleasant coolness in the cosy upstairs restaurant. Here, besides panoramic views of the entire Ryžovna, you can also admire the culinary craftsmanship of the local chef. He prepares not only traditional Krušné Mountain dishes such as soup dumpling called “kluzky” or cabbage soup with dill, but also other delights inspired by our grandmothers’ kitchens – all with a modern twist. And just wait until your first pint of freshly tapped local beer lands on your table...

Charles IV. Brewery in Karlovy Vary

“Charles IV. – The Karlovy Vary Legend, Beer with a Royal Lineage.”

The Karlovy Vary microbrewery Karel IV. is located within the welcoming Becherplatz restaurant. Its main product is the pale Karel IV. beer, which is unpasteurised and brewed according to the original recipe. A curiosity is the herbal beer, matured in barrels previously used for ageing Becherovka.

Named after the historical spa beer Karel IV., the brewery is part of the renovated Becherplatz complex, where the famous Becherovka liqueur was once produced.

Today's microbrewery continues the brewing tradition of Karlovy Vary, which dates back to 1370, when King and Holy Roman Emperor Charles IV granted the town royal city status with the privilege of brewing beer. At Becherplatz, the Karel IV. beer has risen again, and you can enjoy this traditional Karlovy Vary beer directly in the restaurant or buy it in the on-site shops offering everything connected with the Karel IV. brand.

Within the brewery complex, a large restaurant with a winter terrace and a function hall for 250 persons has gradually been built, where you can taste the local beers (10° pale draught, 12° pale lager, 12° semi-dark lager and 12° dark lager). St. Clare's Vineyard

The heritage-listed St. Clare's Vineyard stretches across the southern slope of the Prague Botanical Garden in the Troja Valley and is the largest vineyard in Prague. In addition to wine tastings, visitors can enjoy guided tours of the winemaking process and a vineyard educational trail.

The first written mention of St. Clare's Vineyard dates back to 1228 – at that time, it belonged to the Poor Clares of the convent of St. Agnes of Bohemia, and it therefore bears the name of their patron saint. Over the centuries, the vineyard was part of the Troja Château estate and witnessed the changing course of history. Since 1995, the vineyard has been part of the Prague Botanical Garden. A chapel dedicated to St. Clare has dominated the vineyard since the 17th century, and just below it stands a picturesque vineyard house, slightly newer, which is home to the St. Clare Wine Shop. Here you can buy and taste wines entirely produced by the Prague Botanical Garden. The wine shop, with its terrace, serves primarily as a venue for guided tastings of local wines such as Riesling, Klára White, Klára Rosé, Müller Thurgau, Gewürztraminer, Pinot Gris and Pinot Noir. Salabka Restaurant and Winery

On the slopes above Troja, with views of the vineyards and the Prague skyline, lies the Salabka Restaurant and Winery – a place where history blends seamlessly with modern gastronomy and authentic winemaking tradition. The historic estate, sensitively restored, has become a sought-after venue for group events, celebrations and tastings.

The existence of the Salabka vineyard estate can be traced through historical records back to 1769, though the original vineyards later disappeared. Their renewal took place in the mid-20th century. Today, the vineyard cultivates varieties such as Chardonnay, Pinot Blanc, Müller Thurgau, Pinot Gris, Neronet and Hibernál; the winery's flagship grapes are Riesling and Pinot Noir. The estate, which includes a restaurant with a terrace, distillery, vineyard gazebo and guesthouse, offers a range of spaces suitable for all types of events – from intimate gatherings to large-scale occasions – with bespoke gastronomic service, from plated menus to buffets or wine pairings. The programme can be complemented by guided winery tours, tutored tastings, sabrage workshops or live music. The magical vineyard setting with panoramic views, combined with top-class gastronomy and quality local wine, makes Salabka an attractive venue for hosting events in a peaceful part of the capital.

U Fleků Brewery and Restaurant

One of the most visited by groups – and at the same time the oldest continuously operating brewery in Prague – is the U Fleků Brewery in the New Town. Since the 19th century, it has been a popular social hub where leading Czech cultural figures gathered, and many visitors still regard it as a traditional pilgrimage site for beer lovers.

It is documented that beer has been brewed continuously at U Fleků since at least the late 15th century. The brewery complex consists of several medieval houses, rebuilt over time in alternating historical styles around an inner courtyard, creating an establishment with both indoor and outdoor capacity exceeding 1,000 guests. Each of the eight halls at U Fleků has its own unique history and distinctive décor, while the courtyard garden offers ample seating under mature trees for up to 500 visitors.

The brewery's flagship product is the 13° Flekovský Dark Lager, accompanied by a light lager – both perfectly complement the traditional Czech dishes served in the beer hall. In addition to beer and Czech cuisine, guests can enjoy cultural and musical performances in the Cabaret Hall, visit the brewery museum exhibition, or take a guided brewery tour. U Fleků offers organisers flexible, spacious premises for themed celebrations, banquets, cocktail parties, corporate events and other social gatherings.

Staropramen Visitor Centre

The Staropramen Brewery – the largest in Prague and the second largest in Czechia – is located in the Smíchov district, just a short walk from the banks of the Vltava River. Within its extensive grounds lies the Visitor Centre, which, in addition to beer tastings, offers facilities and programmes for group events.

The Smíchov Brewery is a true symbol of Prague's industrial heritage and Czech brewing tradition. It was founded in 1869, when a group of Smíchov burghers decided to build a modern brewery “on a greenfield site.” At the turn of the century, it was one of the largest breweries in Austria-Hungary – a position it has maintained to this day. Today, Staropramen is not only the second largest brewery in the country but also a vibrant place with a visitor centre where history blends with the aroma of malt.

The heart of the complex is the restaurant in the Visitor Centre, where the history of brewing meets Czech cuisine and the atmosphere of a genuine beer hall. The industrial-style interior evokes the spirit of old brewhouses while maintaining a modern and open feel. The restaurant is the ideal venue for gatherings combined with a brewery tour, a shared lunch, or an evening event with music. Every meal is complemented by beer brewed just a few steps away. The advantage of the Visitor Centre with its restaurant lies in its versatility and the wide range of accompanying programmes, which may include an audiovisual tour of the brewery's history, excursions to selected production areas, a beer-pouring school, guided tastings led by beer experts, and other engaging activities.

U Medvídků Restaurant and Brewery

Beer has been brewed in the medieval U Medvídků house in Prague's Old Town since the mid-15th century, with only a century-long break before continuing up to the present day. The brewery proudly offers a range of beers that even includes one carrying the title of the strongest beer in the world.

Its location in the very heart of Prague's historic centre allows visitors to combine a stop at the beer hall with sightseeing or other activities in the Old Town. The medieval brewery's interiors and outdoor courtyard garden provide countless options for hosting social or incentive events. In addition to the main attraction – enjoying traditional Czech cuisine and beer – U Medvídků also offers guided tours of the microbrewery and beer museum, tastings of its own beers, or the creation of a special beer-paired menu. If one of the ten beers brewed here throughout the year were to be named the flagship, it would be the semi-dark X-BEER 33 – the strongest beer in the world, with an alcohol content of 12.6%. A favourite group activity is the Beer Workshop, where guests can try bottling beer with their own label and learn the art of proper beer tapping. U Medvídků also provides accommodation in the hotel of the same name located in the same building, and guests can even enjoy a relaxing beer-bath treatment.
