Prague Congress Centre

The Prague Congress Centre is among the largest and best equipped in Europe. It offers a variety of spaces suitable for organising different kinds of events, from large congresses and cultural happenings to social occasions. Thanks to its location on a hill above the valley of the Vltava River, many parts of the building provide a wide panorama of Prague, including the historic centre, vast parks and modern districts.

The Prague Congress Centre benefits not only from its exceptionally convenient position within the city, but thanks to its well thought-out and generous architectural design it can offer visitors unforgettable views from many different parts of the complex. The most impressive and widest views can be enjoyed by participants of events in the spacious foyers, which can host networking or exhibitions as well as catering, and also from the outdoor terraces. Among the meeting spaces, the aptly named Panorama Hall offers the finest views, while congress delegates can also admire striking cityscapes from other rooms within the Congress Centre. Spread out before them are the Prague Castle complex, the Vyšehrad area, Petřín, Strahov, Žižkov with its monumental memorial and the television tower.

In addition to the fantastic views of Prague's landmarks, visitors to the Prague Congress Centre can also admire 200 artistic masterpieces by renowned authors displayed throughout the building.

Chateau Herálec – Panorama Hidden in the Interiors

With the arrival of chilly days and early evenings, it is not necessary to rely solely on views of the landscape. An inspiring backdrop can also be provided by the interiors themselves – and Chateau Herálec is proof of that. The chateau spaces function here on the basis of a gallery concept, unique even on a global scale.

The rooms are named after historic paintings from the collections of the Vysočina Regional Gallery, whose replicas adorn the interiors and furnishings. Guests also have the opportunity to encounter names such as Mánes, Honsa, Chittussi, Kosárek or Preisler, and to perceive their works in the unique context of the historic chateau.

The exceptional visual impression is underlined by other spaces: a pool under stone vaults, a silencarium designed for rest and quiet, or views of the chateau park from noble rooms. Chateau Herálec thus brings a new dimension of “panorama” – a view of art, architecture and history in the highest quality.

Restaurant Komáří Vížka

“The view from Komáří Vížka ranks not only among the most beautiful in the Krušné Mountains, but it can be boldly claimed to be one of the most beautiful in all of Europe,” reads a citation from as early as 1890 in the popular Woerl’s travel guide.

Guests here are offered a rich selection of traditional Czech cuisine, including fish, game, pasta and steaks. The menu is complemented by seasonal specialities and a wide selection from the local wine cellar. Our Tip: the renowned duck with cabbage and a variety of homemade dumplings.

Accommodation is also available in 7 rooms with a total capacity of 19 beds. You can reach the summit by the longest aerial cable car in Czechia, which operates all year round.
