

North Moravia

An aerial photograph of a village nestled in a valley, surrounded by lush green hills. The sun is setting in the background, casting a warm golden glow over the scene. A prominent church spire is visible on the right side of the village. The sky is filled with wispy clouds and a few streaks of light.

Location

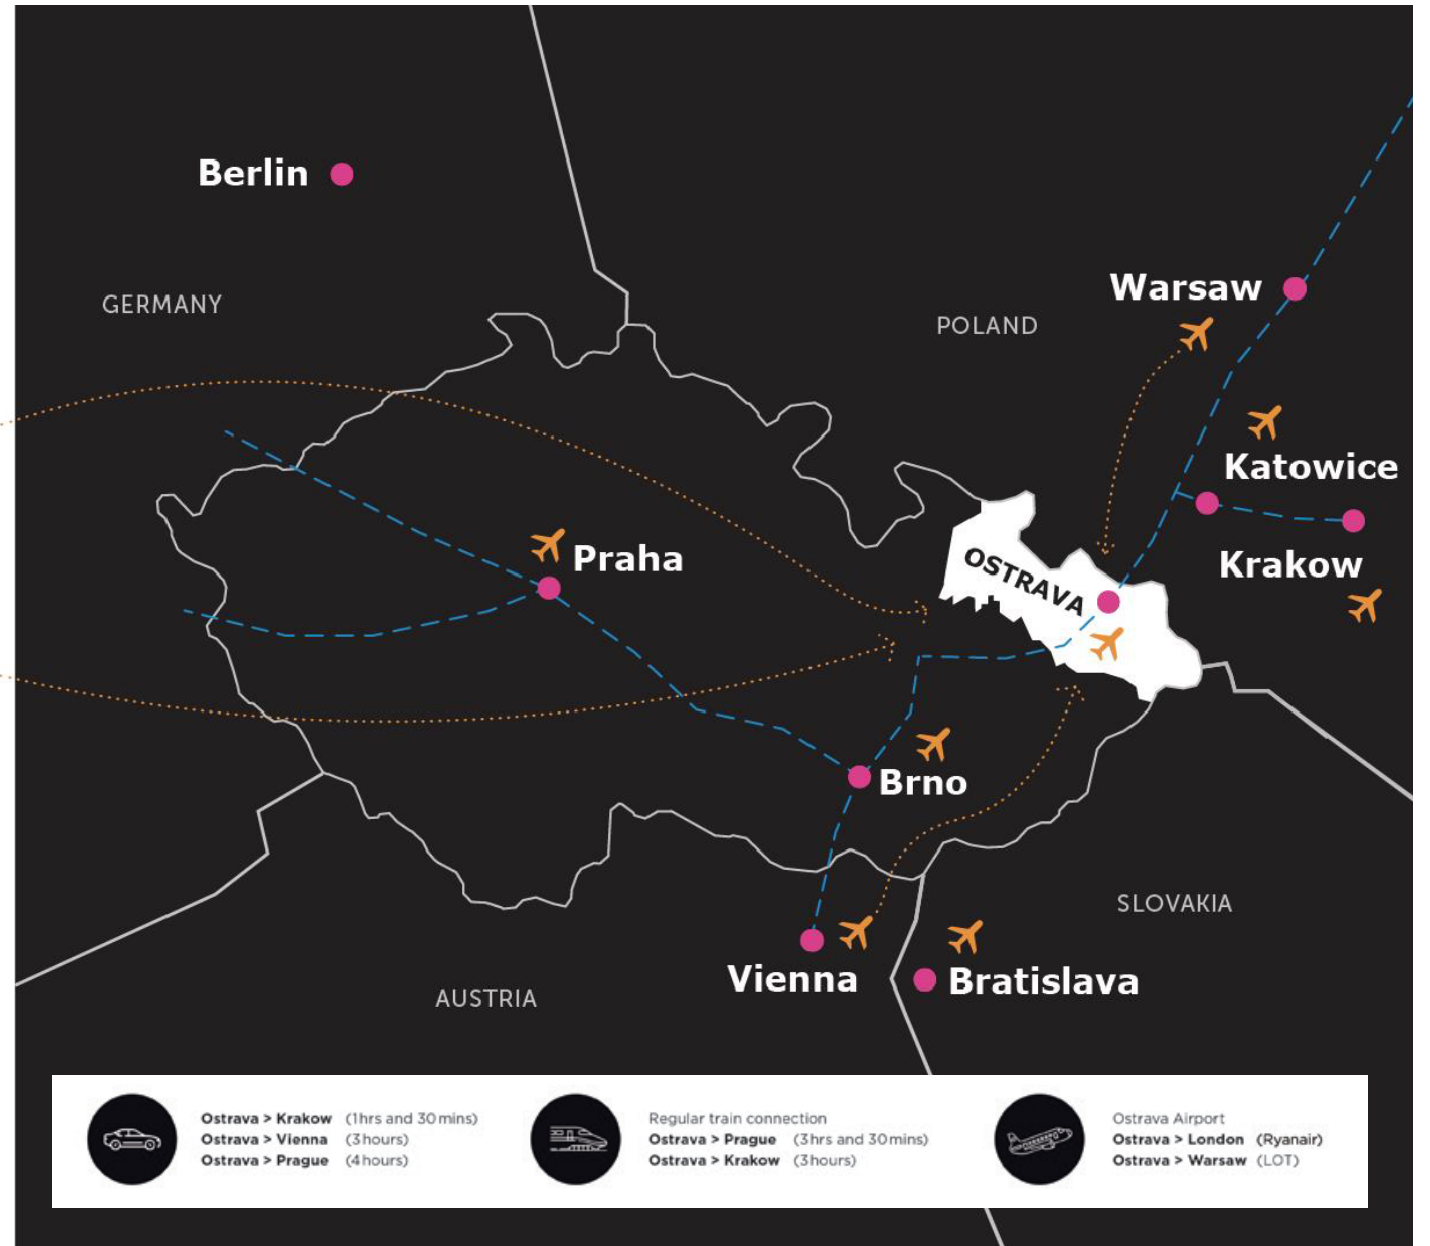

North Moravia and Silesia is the easternmost region in the Czech Republic. Its capital is called Ostrava and, it is, actually, the third biggest city in the CR, with more than 300,000 inhabitants.

Ostrava lies on a major Czech motorway connecting the CR to Poland, Slovakia and Austria. We share borders with Poland and Slovakia.

This means that we are well located with regard to other important cities. It takes less than 2 hours to get to Krakow, 3 hours to Vienna or Bratislava, or Prague.

In Ostrava, we have an international airport with regular flights to London (operated by Ryanair). We have opened a regular line to Warsaw.

Transforming the history of Ostrava

A nighttime photograph of an industrial heritage site in Ostrava. The scene is dominated by dark, silhouetted industrial structures against a twilight sky. In the foreground on the right, a large, dark flywheel is visible, partially illuminated. A metal walkway with a railing leads towards the center. In the background, a tall, multi-tiered industrial structure is brightly lit from within, creating a stark contrast with the dark surroundings. Other industrial buildings and pipes are visible in the distance, some with small lights. The overall atmosphere is one of historical significance and modern preservation.
